

# Upper Gunnison Watershed Management Plan

## Assessment Sub-committee Meeting

**July 23, 2018**

Location: UGRWCD Conference Room

Start Time 3:00 pm

## Meeting Objectives

- ☐ Update committee on status of WMP modeling efforts
- ☐ Finalize field assessment locations
- ☐ Identify preliminary hydrologic and diversion metrics for modeling assessments
- ☐ Identify stakeholder outreach materials related to the assessment

## Agenda

### Modeling Update, WWG (~30-40 minutes)

- StateMod 101
- Summary of WMP Model and Improvements
- Calibration Results
- Questions from group

### Field Assessment Update, Ashley (~30 minutes)

- Overall Approach
- East River Assessment Locations
- Ohio Creek Assessment Locations
- Lake Fork Assessment Locations

### Hydrologic and Diversion Metrics, WWG/Ashley (~20 minutes)

- Consumptive Shortages (magnitude, duration, and frequency)
- ISF Shortage (magnitude, duration, and frequency)
- “Dry Up” and “Near Dry Up” locations (metrics to identify potential low flow issues)
- Naturalized flow vs managed flow
- Others???

### Stakeholder Communication of Field/Modeling Assessment Results, Group (~20 minutes)

- Preferred strategy by sub-basin
- Supporting material (e.g. maps, graphics, etc.)
- 8/13 WMP Committee meeting- daily model results presentation.

### Schedule Update (~10 minutes)
