

The Colorado Division of Water Quality Control invites your input!!

Provide feedback: Lakes & Nutrients Criteria

Submit your comment(s) by Nov. 29, 2022.

The division is hosting the next quarterly water quality 10-year roadmap stakeholder meeting on Wednesday, Nov. 30 from 1-4:30 p.m. A significant portion of the meeting will be dedicated to lakes nutrients topics. We hope to continue making progress toward identifying and resolving issues that are part of the April 2023 lakes rulemaking hearing. *(This agenda item/discussion will serve as the pre-TAC for the TAC meeting on Dec. 6, 2022.)*

The division invites you to provide feedback and highlight topics that you would like to be considered for the lakes nutrients discussion. Submit your feedback no later than Nov. 29, 2022, using the button below:

Submit feedback by Nov. 29

The division will gather the feedback and respond appropriately based on the topics submitted. For example, the division may respond directly to stakeholders on specific topics, discuss the topic during the Nov. 30 roadmap meeting, refer stakeholders to appropriate division staff, or include them in discussions with the TAC.

Please come prepared for the discussion. We look forward to chatting with you next week!
