***Pre-Work:** Please Review March and May Minutes, and Stakeholder Assessment, Drought Impacts and Vulnerability Sections.*

- In breakout groups (45 min):
  - Looking at current/anticipated drought impacts and vulnerability, what are 3-5 goals/value statements that would help to focus future actions for drought resiliency?
  - Example goals (provided by consultants, please edit/change):
    - Look for win-win and multi-benefit solutions (e.g., a rancher implements a technology that cuts costs/labor and conserves water)
    - Acknowledge the differences in water use among interest groups, position actions to be proportional to impact
    - Lead by example, inspire community change in terms of water conservation ethic/responsibility
- Full group debrief and narrowing (30 min)

**10:30-10:50 am**            **Communications Task**

*Stacy Beaugh, Strategic By Nature &  
Carrie Padgett, Harris Water Engineering*

- Update on the task goals and timeline
- Form the group (5 people)
